THE ATLANTA CONSTITUTION.

VOL. XXVI.

ATLANTA, GA., WEDNESDAY MORNING JUNE 14, 1893.

PRICE FIVE CENTS.

STANDS ON MERIT.

Miss Birdie Laramore Applies for an Office.

She Fights Her Own Battles.
Her Endorsements Are Few, but They Are Strong.

No Plums Fell for the Georgians.

Secretary Gresham Is Believed to Favor the Annexation of Hawaii by Slow Stages—A Bank Receiver Named.

Washington, June 13.—(Special)—There is one office seeker here from Georgia who is neither a statesman nor a politician, but whom it will be hardly possible to defeat. The applicant is a woman, scarcely eighteen, with no official backing, her only endorsement being three scrolls of parchment, testifying to a phenomenal brain, and a vast amount of work done in the past.

The fair applicant is none other than Miss Birdie Carrie Laramore, whose graduation from the high school in Atlanta two years ago created such intense interest. She asks for a place as member of the highest branches in the female high school in the district of Columbia. Her learning will be put to a test, and though unusually young even to teach in the lower grades, in view of her past, it will be hard to defeat her. It will be remembered that a second graduate offered Miss Laramore, on the night of her graduation, exercising in Atlanta, which she refused, both she and her friends deeming her work the best in the class. This point was afterward substantiated, and she was given, after a severe investigation, first honor. Her work in Nashville has been even more phenomenal than it was in Atlanta. She crowded three years' work into two, taking at the end of that time two degrees—bachelor of arts and licentiate of instruction. Miss Laramore and her mother are now with the latter's son, A. H. Quarles, of the geological survey.

Annexation for Hawaii.

In spite of the secrecy surrounding the cabinet meeting today, it is pretty well understood that the Hawaiian question was taken up. Secretary Gresham, it is stated, pretty positively takes the stand that the dictation prohibiting foreign intermeddling in Hawaiian affairs is nothing short of annexation. This point has been settled, and what is the best move to take now is the subject under discussion. It is reported here that this administration is looking forward to the best methods of annexation. That such a step must be made slowly, and that the movement must come from great causes than now exist, is what is indicating the stand of the president at present. The opinion is gaining ground that Gresham is for annexation, but not until a protectorate leads up to it as a natural result. Nothing can be stated positively on this point, but those who profess to be close, and were on the inside, predict that annexation will be the final outcome in the matter.

Love's Labor Lost.

The Georgia delegation have had one day's rest at any rate. Representatives Lester and Turner plied through the departments, but came out with their pockets empty. Besides being cabinet day, few of the secretaries were to be seen. Secretary Smith is still at the seashore with his family, but is expected to return to-morrow. Judge Turner gets a receiver. Judge Turner has had Joseph W. Bennett made receiver of the Oglethorpe National bank, and Brunswick. The appointment was made today. Judge Turner has other business before the secretary of the treasury, which will be settled in the next few days.

In the Postal Department.

A post office was today ordered to be established at T. T. Howell, Butts county.

Commissioners were sent today to Edward M. Tatum, at Atlanta, and Alton L. Nichols, at Louisville, to assume charge of the offices at those places.

Ainesworth Was Absent.

And There Was No Excitement at the Investigation.

Washington, June 13.—(Special)—A fertilizer company somewhere also attempted to secure the United States Circuit court an injunction restraining the state court from agitating from collecting a tax of 25 cents per ton on fertilizers. The court declined to grant the injunction, but appointed a commission to take testimony as to whether the tax collected was in excess of an amount necessary to secure a proper inspection and control of fertilizers. The court now decided that the tax is not excessive, thus continuing the tonnage tax. The fertilizer companies appeal to the United States supreme court.

The fertilizer companies appeal to the United States supreme court.

"I'll tell you what I'm going to do," said Mr. Cleveland, as he rose to his feet. "I intend to address a letter to the public, in which I shall withdraw from the ticket, and give it to the press. I intend to explain my situation and repeat what you have said to me. I will tell the voters I cannot give any secret pledges, and unless I do, you will not support the democratic ticket, which means the loss of the state of New York, and defeat. I will tell the voters I do not want to stand in the way of democratic victory. That is what I shall do. Then, gentlemen, you can pick a candidate to suit you, and, if he is the proper man and the candidate of the party, I will vote for him."

There was a pause.

"But I'll tell you one thing, Mr. Sheehan," said Mr. Cleveland, as he turned to the now breathless lieutenant governor, "in my opinion, public opinion will snow you and your organization out of sight within a week."

Mr. Croker leaped to his feet.

"This must stop, Mr. Sheehan; I agree with Mr. Cleveland. He cannot make any pledges, and it is not right to ask him for any."

So the dinner party separated.

"I'll tell you what it is," said the ex-president, as he told the story, "those fellows got hold of Whitney and ratted him."

The gentlemen who saw the president a few weeks ago say Mr. Cleveland now thinks it was a great mistake not to have allowed the anti-Tammanyites to nominate an independent candidate. He is confident that such a ticket would have been victorious, and would have resulted in a political condition in the state less embarrassing than that which now confronts him.

"I am satisfied," said the informant, "that the next local election will result in republican success, and it seems to me about the best thing that can happen."

"That is Mr. Cleveland's idea, I do know."

"I won't say that; in fact, I don't know."

THAT DINNER PARTY

At Which Cleveland and Sheehan Had a Bout?

OVER THE MATTER OF PLEDGES

During Which It Is Said Cleveland Got Angry

AND BROUGHT HIS FIST DOWN HARD

And Said He Would Withdraw from the Ticket Before Complying with the Demand—The Herald's Story.

New York, June 13.—The Herald prints the following: Mr. Cleveland's party of the famous little dinner party at the Victoria, at which Mr. Sheehan's nose was tweaked, so to speak, is quite interesting. This is the way it is repeated by an intimate friend of the president, and is the first time it has been made public in its details. Mr. Whitney had urged upon Mr. Cleveland the importance of meeting the survey leaders of the democratic organization with a view to harmony. The ex-president was unwilling at first; he insisted that the fight at Chicago had settled the question of personalities, and there was no more reason why he should go to New York and make overtures to Mr. Hill's friends than he should to the followers of any dead friend. He should be allowed to do what he wanted to do, the editor says. If they were democrats, it was their business to support the ticket. Finally, however, Mr. Whitney's arguments prevailed, and Mr. Cleveland started from Buzzard's Bay to meet the sullen leaders. When Mr. Cleveland met Mr. Whitney, prior to the dinner, he looked at him with a curious smile.

Who Will Be There?

"Well, Whitney, have you got your dinner ready?"

"Yes, everything is ready."

"Who will be there tonight?"

"Murphy, Sheehan, Croker," and Mr. Whitney named the invited guests. There was a moment of silence and then Mr. Whitney laughed.

When the dinner was ready, Mr. Sheehan turned to Mr. Cleveland and said there was a matter of business to be discussed.

Mr. Cleveland expressed his willingness to hear the gentleman when he was ready.

Mr. Sheehan said he had been informed that Gresham is for annexation, but not until a protectorate leads up to it as a natural result. Nothing can be stated positively on this point, but those who profess to be close, and were on the inside, predict that annexation will be the final outcome in the matter.

Another Democrat Gets In.

In spite of the secrecy surrounding the cabinet meeting today, it is pretty well understood that the Hawaiian question was taken up. Secretary Gresham, it is stated, pretty positively takes the stand that the dictation prohibiting foreign intermeddling in Hawaiian affairs is nothing short of annexation. This point has been settled, and what is the best move to take now is the subject under discussion. It is reported here that this administration is looking forward to the best methods of annexation. That such a step must be made slowly, and that the movement must come from great causes than now exist, is what is indicating the stand of the president at present. The opinion is gaining ground that Gresham is for annexation, but not until a protectorate leads up to it as a natural result. Nothing can be stated positively on this point, but those who profess to be close, and were on the inside, predict that annexation will be the final outcome in the matter.

the vicious elements by which it was supported, and the privileges which it conferred upon them. Mr. Pike was regarded as the chief political agent of the mayor then in office, and as taking his pay for his political services in the privilege of swindling the ignorant and the weak of the community."

More of the Same Kind.

Continuing: "The Tenetarian says: Since Mr. Huff took up his residence in a house of Macon, he has been uniting in his efforts to control the politics. The city having sunk to the verge of complete bankruptcy and disrepute, and the negroes in a condition of passing counterfeit money, Mr. Jackson, it will be remembered, was formerly assistant postmaster at Americus, and was sentenced to the penitentiary for four years. He was pardoned by President Cleveland on account of ill-health. This occurred during the administration of President Harrison, and ago Jackson was arrested on the charge of counterfeiting and was put in the jail at Macon. When ordered to come to the courthouse today he complained of being sick and suffering intensely. Judge Speer, and Dr. Holt to examine him. Dr. Holt pronounced Jackson well enough to go on with the trial. The case will consume several days. District Attorney Gary represents the government and Jackson is defended by Messrs. Marion Jones and E. Cohen.

Two Charters.

Today in Bibb superior court charters were granted to the McMeans Furniture Company, with a capital of \$30,000, and the Macon Hat Company, with a capital of \$15,000.

has been notified that the desk is now at the establishment of J. W. Burke & Co., Macon, awaiting his orders.

An Important Trial.

Today in the United States court the case against Will R. Jackson, white, of Atlanta, and Ed Wyatt, colored, was taken up for trial before Judge Speer. Jackson is charged with making and passing counterfeit money, and the negro with passing counterfeit money. Jackson, it will be remembered, was formerly assistant postmaster at Americus, and was sentenced to the penitentiary for four years. He was pardoned by President Cleveland on account of ill-health. This occurred during the administration of President Harrison, and ago Jackson was arrested on the charge of counterfeiting and was put in the jail at Macon. When ordered to come to the courthouse today he complained of being sick and suffering intensely. Judge Speer, and Dr. Holt to examine him. Dr. Holt pronounced Jackson well enough to go on with the trial. The case will consume several days. District Attorney Gary represents the government and Jackson is defended by Messrs. Marion Jones and E. Cohen.

What he is doing now, and we think it is about time for Macon to shake the old man off.

MR. BRYAN IN MACON.

Nebraska's Eloquent Congressman Was Judge Crisp's Guest Yesterday.

Marion, Ga., June 13.—(Special)—Hon. William Bryan, the distinguished and popular congressman from Nebraska, arrived in the city this morning, at 11 o'clock, from Milledgeville, where he delivered a very able, highly entertaining and scholarly address last night at the commencement of the Girls' Normal and Industrial college. Mr. Bryan left about noon for Americus to visit Senator Crisp, whose guest he will be until tomorrow. Mr. Bryan will reach Macon tomorrow morning and leave immediately for Atlanta, where he speaks to-morrow night. The present expectation of Mr. Bryan is to leave Atlanta at Thursday midday and go to Savannah, where he will spend Friday and may come to Macon on Saturday and spend several hours. Quite a number of Maconites heard Mr. Bryan's address at the Girls' Normal, and were greatly pleased with it and with him. He is a charming gentleman socially and won the favor and admiration of all. Mr. Bryan expresses himself as delighted with his visit to Georgia. He says the trip is of inestimable value to him, as it has opened his eyes fully to the great opportunities for educational advancement. While he is in perfect accord with our democratic principles and in touch with our aspirations and feelings, he had no adequate conception of the south's true greatness and substantial development. He was greatly pleased with our educational progress.

An Election Ordered.

Macon, Ga., June 13.—(Special)—The city council met tonight and adopted resolutions as supplemental to the ordinance recently passed by council ordering an election for the issuance of \$200,000 bonds to sewer the city. The resolutions provide for an additional committee of seven citizens to act with the mayor and council on the sewer matter and practically does away with the sinking fund.

The mayor was requested to appoint a committee of three aldermen to confer with the bond commission at council tonight. A communication was read from the Macon board of education, which contained the intention of the report of deficient water pressure at the Dure fire Sunday morning. Alderman Thinholser stated that he had already addressed a communication to the Macon gas light and water company and the latter had agreed to make the necessary repairs. The entire matter was referred to the board of fire masters of the city council.

This afternoon Miss Marie Dempsey died. She was the handsome and accomplished daughter of Thomas C. Dempsey, one of Macon's wealthiest citizens. She was sick but a few weeks.

The water committee of the board of trade met this afternoon to discuss the purchase of the Macon gas light and water company. The company asks \$550,000 for its water plant. The city would be willing to give \$250,000.

Governor Northern.

Governor Northern passed through Macon today en route to Atlanta from Milledgeville, where, last night, he introduced Congressman Bryan in a most happy and appropriate manner. The governor was accompanied by Mrs. Northern, who expects to attend the commencement at the Oxford tonight.

Hon. Peter King, Governor Northern and others in the delegation were invited to the train that bore the governor to Atlanta. Mr. King was one of the visiting committee of the legislature to the Girls' Normal and Industrial college. Mr. King was greatly impressed with all he saw in Milledgeville, especially with the people who were much pleased with the able and popular representative from Fulton.

Memorial Services.

By order of the grand master of the grand lodge of Georgia, Franklin and the United Brothers lodges of Old Flanders held a joint memorial meeting tonight in commemoration of the dear members of the two lodges. Among the brethren present to make addresses were Messrs. W. A. Davis and T. E. Ryals. The services were interspersed with some very delightful music, arranged by Mr. S. A. C. Everett, an accomplished musician of this city. The Old Flanders have a very growing order in Macon. The membership of the lodges is greatly increasing.

Solemn Easteen.

Rev. John J. Brantley, D. D., was professor of belles lettres in Mercer university. He held the chair for many years, but, at the recent meeting of the board of trustees, he resigned on account of his weak physical condition. In recognition of his past long, faithful and able services to Mercer university, the trustees not only elected him professor emeritus, but they and other friends of Dr. Brantley and his widow presented a purse of \$12,000 and presented it to him as a mark of esteem, affection and honor.

A Handsome Present.

The Georgia Press Association, at its present annual convention, in Macon, passed a resolution appointing a committee to select and buy a present for its retiring president, Colonel W. L. Glessner, who will, for several years, be the efficient and popular head of the organization. The said committee has purchased a very handsome roller oak desk, and Colonel Glessner

will be the recipient.

Carrollton, Ga., June 13.—(Special)—The commencement exercises of the seniors of Carrollton Normal and Agricultural college, between the Gainesville and Hall County Street Railroad Company—all on account of the sparkling water that gushes with all its primitive freshness from the hills round about. It seems that Mr. Holtzendorf wanted to close the school, but the line had been constructed only for the benefit of the spring and the patrons had used the water for some time in private residence. When the school was entering, Mr. Holtzendorf's a clause was found incorporated in the deed which set the water back to the line.

The deed conveys the right of way through the spring property was taken up to run both ways on the Gainesville and Carrollton during the entire exercise of three days.

Dr. Latattie is greatly esteemed here as an educator and as a Christian gentleman, and is doing his best to up the college and winnow Georgia as well.

Normal Girls Graduate.

Milledgeville, Ga., June 13.—(Special)—The graduation exercises, the class of the seniors, of the Gainesville and Hall County Street Railroad Company—all on account of the sparkling water that gushes with all its primitive freshness from the hills round about.

ATLANTA, GA., June 14, 1893.

Mr. H. I. Kimball's Plan.

A short letter from Mr. H. I. Kimball,
in this issue, will be read with great in-
terest.

Mr. Kimball sees how our Manufacturers' Aid Association can, by adopting
what he calls the "guarantee system,"
effectually promote the upbuilding of
our manufacturing interests without
loaning them a dollar and without tak-
ing stock in them. Under his system
the money subscribed would be used only
in case of liquidation, and he estimates
that under such a plan of operation \$50,-
000 would be equal to \$500,000, and
\$500,000 would be equal to \$5,000,000 in
the matter of practical results. He does
not go into details, but is confident that
when the association looks into the
merits of the guarantee system it will
be adopted.

After closely studying the manufac-
turing situation in every section during
his whole life, Mr. Kimball declares
that for social, educational, climatic,
trade, industrial and transportation ad-
vantages there is "no more favored spot
on earth" than Atlanta.

This is the opinion of an expert. It is
delightful to say that Mr. Kimball's sug-
gestion will be thoughtfully considered
and discussed by our citizens. The
Manufacturers' Aid Association is com-
mitted to no particular plan. It wants
the best—the most practical and satis-
factory.

Puzzled Monometallists.

The advocates of the gold standard in
this country who have followed the lead
of certain British financiers and politi-
cians are now confronted with an unex-
pected difficulty.

The monometallists in England are
in a state of hopeless and helpless be-
wilderedness. The London Spectator
thus describes the embarrassment of a
whole goldbug:

Lord Roberts, speaking to a Chamber of
Commerce, of course referred to the trouble
of the hour in India; and it is most curious
to note how, as he touches the silver problem,
the proud, confident voice drops down
to a note of hesitation and perplexity. He
has no knowledge of, or can give, to nobody
else to human wisdom than the break
down of intelligence over the silver diffi-
culty.

Our Anglo-mafias who have em-
braced the single standard theory have
unloaded upon the country the most
startling collection of misinformation in
regard to the silver question that ever
challenged attention or excited the
wits of a sensible people. But they
have reached a point where bold asser-
tions and impudent generalizations will
no longer do. They must reconcile the
facts of the case with their theory or
surrender.

They will get no help from their British
allies. The break down of intelligence
over the silver difficulty in England
seems to be contagious. It has
spread to this country, and the goldbugs
are now face to face with the angry
millions who realize through the shrink-
age of values that the demonetization of
silver means the most sweeping and
ruthless contraction of the circulating
medium that was ever known in his-
tory.

The discomfiture and collapse of the
monometallists over the sea will throw
their friends in this country into confu-
sion and distress. Here the bimetalists
are in the majority in and outside of
congress. They have driven the opposi-
tion to the defensive, and, when con-
gress meets, no time should be lost in
restoring the double standard, which
bears the endorsement of centuries of
experience.

The Richmond Terminal.

The Richmond Times agrees with
The Constitution that it is difficult to
overestimate the importance to the
south of the proposed reorganization of
the Richmond Terminal by Drexel, Mor-
gan & Co.

Speaking of the offer of this firm to
put about \$25,000,000 into this great
railway system, our contemporary says:

This is an immense sum of money to come
in as fresh capital in southern railroads,
and it will be applied to building and equipping
in the ordinary way our thousands of new
railroad in the south, without the use
of waste, which unnecessary railroad
construction always involves.

The expenditure of this money is, how-
ever, the most important feature of the
case. The firm undertakes to pay off these
properties managed in the way which will
remove them from the control of the
government which have made these southern railroads
a bane and a reproach as the harbors of
piracy and plunder. The further result
will be the avoidance of inviting and en-
couraging capital to the south, which now
regards that region as little better than a
financial quicksand.

The railroads will be operated in the
most efficient way for transportation of
the products of the country to the market
and for the development of new in-
dustries.

We have heard much, but not too much,
recently of the value of confidence as a
cure. If there could be a more conclusive

justification of confidence in southern rail-
roads and southern enterprises than this great
undertaking of Drexel, Morgan & Co., we
cannot suggest it. They should be welcomed
most cordially by all who are interested in
the progress of the people, who are
the world to know that God has given the
south unrivaled resources, and that law
abiding southern men will see that property
in their midst is protected.

This leadership to the capital of the world
is worth hundreds of millions of dollars to
the region reached by the six thousand miles
of railroad so to be controlled and operated.

We desire to emphasize every word
of the foregoing. Nothing in recent years
has borne stronger testimony in favor
of the south and her material progress
than this proposition of the Drexel,
Morgan syndicate. It is to be hoped
that the enterprise will receive the
hearty encouragement and aid of our
people.

Atlanta's Democratic Guest.

Congressman Bryan, of Nebraska, has
won not only fame as a brilliant and an
eloquent orator, but distinction as a
fearless democrat. His sympathies go
out to the whole democratic people. On
neither the tariff nor the financial issues
is he disposed to make terms with the
monopolists and the extreme money
power. He stands squarely on the
democratic platform as it is written and as
the voters of the country interpret it. He is
in favor of a tariff for revenue only, the free coinage of silver on the
same terms with gold, and is not in
favor of the repeal of the Sherman law
unless a compromise is made.

Mr. Bill McKinley's bill will not be re-
nominated nor re-elected.

Why Congress Should Get to Work.

The representative business men of
Atlanta, and of Georgia, and of the
south, and of the country, demand that
something be done without further un-
necessary delay in the way of the rem-
edial legislation promised the people.

These business men are in touch with
the overwhelming majority of the mer-
chants, manufacturers and financiers of
the country. A close reading of our ex-
changes makes it apparent that men of
all shades of political opinion, repre-
senting every occupation and every ma-
terial interest, desire to have the extra
session called without a day's unneces-
sary delay.

It is, of course, taken for granted that
congress will fully redeem the pledges
of the democratic platform in regard
to financial and tariff reform, but it is
important that we should know all about
the details of the coming legislation at
the earliest possible moment. If the
president is satisfied that the interests
of the country require an extra session,
why put it off as late as September? If
the uncertainty of the past one hundred
days is a bad thing, why prolong that
uncertainty seventy-five or ninety days
longer?

This is a matter of business, and a
good rule in all matters of importance
is never to put off until tomorrow what
can be done today. It is a great injus-
tice to all classes to allow the wheels of
industry and commerce to be blocked
in this unnecessary fashion, when it
would be so easy to set congress to
work on the legislation which must take
definite shape before the business of the
country can go on.

THE NEW YORK MARKET.

The Day of the Floor of the New York Stock Exchange.

NEW YORK, June 13.—The stock market was even duller than usual today. The trading was mostly professional, and as the trade is still bearish a further decline was recorded.

The advances from the west of market were not large, and the market was still bearish materially in their operations. The continued shipments of currency and consequent firming of the rates for time money also had an influence upon speculation. Under the circumstances the decline in the market was no more than 1½ per cent, ranging from 1½ to 2 per cent. The shorts on this attempted to cover and prices improved 1½ per cent. A feature of the rally was the light offerings as the market made progress.

Turner's stocks were up 10 per cent.

Railway bonds were weak. Sales \$70,000.

Government bonds quiet.

State bonds dull.

Bank stocks were very active at 50½ per cent; last loan at 5, closing offered at 50½ in mercantile paper 48½.

Trading exchanges steady with actual business in bankers' stocks 48½ for 60 days and 48½ for demand.

The following are closing totals:

Atlanta & S. & W. 24 Northern & Western 23½

Baltimore & Ohio 7½ Northern Pac. 34½

HARRY HILL'S BOND

Was Increased Yesterday by Solicitor Hill to \$11,000.

MISS JULIA FORCE'S CASE SET.

Gus Allen, the Man That Assasinated Patrolman Randall, in Court—He Was Adjudged Insane the Second Time.

Harry Hill's bond was reset yesterday by Solicitor Charley Hill.

The first bond fixed was the one for \$7,000 on the first four indictments, but Hill was either unable to give it or did not care to do so.

The amount of the bond now is \$11,000, the increase being at the rate of \$550 an indictment. Since Solicitor Hill has increased the amount of Harry Hill's bond it is still less probable that he will be able to give it.

Not a single one of the cases on the eleven indictments for forgery found against Hill has been set for trial as yet, and it is hardly likely that he will be brought to trial before the next term of the court, as Solicitor Hill has his hands full with bond cases.

The case of Miss Julia Force, against whom there are now two indictments for the murder of her two sisters, Misses Minnie and Florence, was set yesterday for June 26th.

It was set yesterday afternoon in order to allow the defense plenty of time to get ready by the date selected for the calling of the case.

Solicitor Hill will prosecute Miss Force, and will have an associate counsel in the matter to aid him. Who the counsel will be the solicitor has not decided upon.

Representing the defense will be Captain John Hardeman, of Macon, and Mr. Burton Davis. A plea of insanity probably will be entered by the defense.

The outcome of the Force case will be awaited with more than ordinary interest, and it is expected that it will be very difficult to secure a jury. The details of the murder of Misses Minnie and Florence Force, by their sister, the defendant, will be told in the trials of the public. Miss Julia Force's own story told most vividly how the cold-blooded murderer was executed; how she bought the pistol and to what effect she used it.

To the press she gave a statement, written by her, a story of her own life, and which was written in a remarkably good style. She was put on trial in the ordinary's court on a writ of insanity, and when the jury found her insane she declared vehemently that she was not crazy.

John Calhoun has been quoted as saying that he did not believe that she could be tried after having been found insane, but Solicitor Hill will nevertheless push the case to a speedy trial.

On Allen Adjudged Insane Again.

Apparently helpless and limp, Gus Allen, the man who came very near murdering Patrolman Randall, was carried into Judge Richard Clark's courtroom to be tried for arson.

Allen was sent for by Judge Clark, and was returned that he was so violent that his clothes could not be put on him, and that it was therefore impossible to bring him to the courthouse. Judge Clark notified the sheriff that it was absolutely necessary to take him to the jail.

Allen was then taken to the jail, less than a half dozen feet from the Allen to the floor while he was dressed in the best manner possible under the circumstances. He was placed in a back and brought to the courthouse where four men attempted to take him into the courtroom. He fought and struggled, and succeeded in getting a very diring ring tightly clinched between his teeth. After he became exhausted he was entirely helpless and was dragged into the presence of Judge Clark and placed in a chair.

GRAU'S OPERA COMPANY.

A Grand Production of "Girofle-Girofle" Last Night.

The opera sung last night, "Girofle-Girofle," is in every respect within the reach of the company, and gives each member of the cast a good opportunity to display his or her personal talent.

There was a great audience present last night.

Miss Bessie Fairbairn appeared as "Girofle-Girofle" and was, of course, charming both in her acting and singing. Mr. Persse appeared as Marasquin and—well, all the ladies are delightful. Mr. Persse, Mr. Gaillard did the part of M. Girofle in a most manner. He did not make a roaring lion out of the part as some actors do, but was nevertheless sufficiently ferocious, while his singing was admirable. One of the principal numbers in the third act he sang in French.

Mr. Fairbairn sang very well, and the whole performance was a success. The round off of the evening was the matinee, and tonight we are to have the "great" "Clover," and "Marta," night, by the request of hundreds.

In view of what Hood's Sarsaparilla has done for others, is it not reasonable to believe that it will also be of benefit to you?

Sarsaparilla and Adonitadon, combined with the other ingredients, make Carter's S. W. & B. Backache Plasters the best in the market. Price 25 cents.

Notes.

Mrs. Smith, who has a baby at the Home for the friendless, is requested to confer with the officers of the home. Mrs. L. B. Nelson, president.

VALUABLE INFORMATION TO SOUTHERN VISITORS
To the World's Fair—How to Reach the

In report to you inquiries from the south as to the most direct route from the railway stations to the Columbia hotel, we suggest that visitors select the pleasant and popular route—one that will land them in Chicago during the day time;

If you leave Atlanta in the morning, start at 10 o'clock and see that your ticket from Nashville is on the Evansville route and the coupon reads: "Chicago and Eastern Illinois railway."

If you leave Atlanta after noon, start at 2:15 and be sure your transportation north of Louisville and Cincinnati is via the Monon line. These trains will land you during the day at the most conveniently located depot in Chicago—the Dearborn station on Polk street.

From this station it is only one block to State, the principal street in Chicago. When you pass out from the station turn to your right, walk one block to State street and take a side street called "Dearborn" to the Dearborn street. Here you will find the Columbia hotel and a genuine southern welcome among friends from home. Very truly yours,

TIMBERLAKE & HOLSSAPLE.
IT WILL OCCUR THURSDAY.

The grand military picnic which was postponed from Last Tuesday.

The grand military picnic which was to have occurred at Pearl lake last Tuesday will take place on Thursday.

One of the lowest contributions for a picnic in the state, and the crowd that improves the opportunity for a day's outing will have no reason to regret it.

Fishing, dancing and other amusements will furnish a pleasing variety of fun and the occasion will be one of rare pleasure and delight.

The train will leave Atlanta next Thursday morning at 8 o'clock, returning again in the afternoon at 7:30 o'clock. Enough coaches will be secured to accommodate all who desire to go, and the train will be one of the longest that has ever left the city.

FOR SKIN DISEASES

Doctor Recommends Cuticura Because It Has Never Failed to Give Good Results
Cured in 3 Months, Salt Rheum of 20 Years' Standing, her We All Other Remedies Failed.

It gives me pleasure to recommend your Cuticura because to all who are troubled with the various forms of skin diseases and blood poison. I have prescribed your Cuticura on several occasions, and it has never failed to give good results. I have never seen any other remedy that has failed in this case, had, where all other remedies failed until I tried your Cuticura. Remedy.

After using Cuticura, Cuticura has been applied to many cases of skin disease and has been successful in every case.

Be not deceived or humbugged into buying a worthless imitation. See that "Dr. Sanchez's BECK & HACON,

DR. H. SANCHE'S OXYDONOR "VICTORY."

OXYGEN BY ABSORPTION.
Dr. H. Sanchez, the eminent scientist, is the discoverer of the method of spontaneous cure, and the inventor of all things pertaining thereto.

ALL CLAIMED FOR IT.

Colonel W. A. Lofton, a prominent member of the medical bar, and ex-member of the legislature, writes under date of June 7, 1893, as follows:

"Oxygen 'Victory' is a family. Having personally witnessed some of the results, I used it or applied to you to do so, in a case of a grippe, and subsequently in a severe bilious attack, accompanied with manifest symptoms of dysentery, and in both instances the disease was arrested in a few hours, and the patient cured in a few days, by the application of the Oxydonor 'Victory' to the skin. I have used it in many other cases, and in any other disease, I do not understand the rationale by which disease is thus cured, but my observation satisfies me, strange as it seems, that the Oxydonor 'Victory' is the cause of the cure. W. A. LOFTON.
